The plan

ES5 vanilla classes

Object.create

Object initializer

ES2015 classes

The plan

ES5 vanilla classes

`Object.create`

Object initializer

ES2015 classes

```
class Bazar {  
    constructor(stalls) {  
        this.stalls = Array.from(stalls)  
    }  
  
    get stalls() {  
        // Use value, not reference semantics  
        return this.stalls.concat()  
    }  
  
    ...  
}
```

The plan

ES5 vanilla classes

Object.create

Object initializer

ES2015 classes

```
function Bazaar(stalls) {
  if (!(this instanceof Bazaar))
    return new Bazaar(stalls)

  // Coerce `stalls` into an proper Array
  this.stalls = [].slice.call(stalls)
}

Bazar.prototype = {
  constructor: Bazar,
  walkAround: function Bazar$walkAround(person) {
    ...
  }
}
```
